Warsaw 28 December 2016

Dear Mary

At the Christmas meeting of physicians and nurses celebrated on the Day of the Holy Innocents, we recalled with gratitude Your decision to go into the abortion clinic in Toronto in order to defend the smallest children against the death. You have chosen a beautiful day – 12 December - the feast of Our Lady of Guadalupe - Protectress of Unborn Children. It occurs that on the same day our association, Catholic Association of Polish Physicians, together with other medical groups sent a letter of protest to the director of Clinic of Gynecology and Obstetrics expressing our strong objection against abortions of children with Down's syndrome carried out in this hospital. You probably know that unfortunately Polish law allows abortion in the case of severe malformation of fetus. Many physicians in Poland qualify babies with Down' syndrome (often only with suspicion of this syndrome) to abortion and legally condemn them to death under this law.

We are medical doctors, members of Catholic Association of Polish Physicians in Warsaw. In September 2016 our division (chaired by Prof.

Bogdan Chazan) has adopted the name of Blessed Dr. Ewa Noiszewska – doctor of internal medicine, a sister of the Congregation of the Sisters of the Immaculate Conception of the Blessed Virgin Mary and a martyr. She was shot to death by Germans for providing medical help to Jews on 19 December 1942. The new managing board of the association includes members of the Medical Group of the Holy Family. Now we collaborate closely. Every month the association organizes meetings of doctors in the parish of the Immaculate Conception of the Blessed Virgin Mary in Warsaw. We try to participate together in pro-life actions. Your actions inspire us. We do this individually in our daily work with patients and jointly as Catholic Association of Polish Physicians and Medical Group of the Holy Family.

We thank you for your attitude. Mary, please remember, that you are not alone, although you alone go into an abortion clinic. We support you constantly with our prayers. We are glad that some Polish were present at your trial. We trust that your perseverance will lead a change of the law in Canada as well as in Poland. We cordially ask for your prayers in the intention our Archbishop Henryk Hoser, also a doctor, who after return from Africa got sick with malaria. We trust that the Best Divine Doctor will grant him a full health recovery. Many people and groups in Poland have prayed for the Bishop and we have been informed about an improvement of his health. We trust even more that our joint prayers with you will ensure health and life of many small children.

Dear Mary, you are spending the beginning of the New Year in jail. We wish the Newborn Jesus, Merciful Life-Giver, grant you abundant blessing so that you were a sign of His Loving Presence among women in jail. May Divine Child Jesus give you perseverance and confidence that He will save many children through your actions.

Exactly two months after your arrest you will celebrate your birthday in a special company of prisoners, your new friends. We hope that for women in jail it will be the day of joyful meeting with you and the day of sincere prayer in Your intention, in the intention of the innocent person wrongly accused and wrongly convicted. We believe that such a prayer in the intention of the known and close person will encourage these women to pray for all the children wrongly condemned to death. We thank God for Your Parents and especially for Your Mother who has given birth to you.

*We are sending you, Mary, our most cordial greetings
“The Lord bless you and keep you; the Lord make his face shine on you”*

*Physicians from Masovian Division of Catholic Association of Polish Physicians
of the Blessed Dr. Ewa Noiszewska (KSLP)
and Members of Medical Group of the Holy Family:*

***Prof. Bogdan Chazan**, Specialist of gynecology and obstetrics
Chairman of the KSLP and MaterCare Polska,*
