

Dear Catholic Doctors

Warsaw, 31.05.2019

We, Catholic doctors from Poland, wholeheartedly support Ms. Mary Wagner, a sterling pro life activist and we admire her ethical stance. She sacrifices her health and her life for chance of saving even a single human being while still in mother's womb.

Jesus said: (Matthew 25:40)

'Truly I tell you, whatever you did for one of the least of these brothers and sisters of mine, you did for me.'

On April 17, 2019 Mary went to Everywoman's Health Clinic in her hometown Vancouver to once again defend the lives of unborn children. Unfortunately, for honestly informing mothers about solving the problem of an unwanted child, without abortion, and trying to save the lives of their children, she was arrested and condemned to stay in prison under Canadian law. She was many times in prison after entering the Abortion Clinic in Toronto.

We, doctors from Poland, members of Polish Catholic Physicians Association thank Mary for her actions and support her hoping that she contributes to changing the right to live in Canada.

Catholic colleagues - doctors, for whom every life is a gift of God, we are ask you to help in this difficult matter.

Please, we urge you to take action to protect the lives of unborn children in Canada!

God bless you!

Sincerely,
